

Brain Awareness Week Partner List

Brain Awareness Week is the global campaign to foster public enthusiasm and support for brain science. Every March, partners host imaginative activities in their communities that share the wonders of the brain and the impact brain science has on our everyday lives.

Partners include colleges and universities, hospitals, medical research institutions, K-12 schools, advocacy groups, outreach organizations, professional associations, government agencies, corporations, and more. Since its founding in 1996, Brain Awareness Week has included the participation of more than 7,300 partners in 117 countries.

The map below shows the geographical distribution of Brain Awareness Week partners worldwide.
